

Annual Report 2017

Profile

Musashino Bank is the only regional bank whose operational base consists of Saitama Prefecture in the Tokyo metropolitan area. The prefecture lies immediately to the north of Tokyo, and many of its residents commute to work in the capital. Currently, 7.3 million (estimated) people live in Saitama, making it the country's fifth most populous prefecture after

Tokyo, Kanagawa, Osaka, and Aichi, and the population is still climbing. Since its establishment in 1952, Musashino Bank has been one of Saitama Prefecture's core financial institutions, and has played a major role in supporting the development of the regional economy and local industries for over six decades.

Corporate Philosophy

"Working in harmony with the local community it serves"

To contribute to the prosperity of the local community and to secure growth and development in partnership with the region.

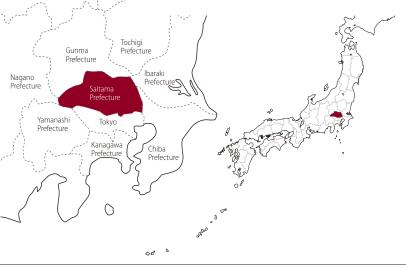

"Maintaining a deep respect toward customers"

To engage in bold management that anticipates change while providing the highest quality services throughout the organization as a whole.

Forward-Looking Statements: This annual report contains forward-looking statements regarding the Bank's financial condition and results of operations. These forward-looking statements, which include the Bank's views and assumptions with respect to future events, involve certain risks and uncertainties. Actual results may differ from forecasts due to changes in economic conditions and other factors.

^{2.} U.S. dollar figures have been translated at the rate ¥112.19 to U.S.\$1, the prevailing market rate as of March 31, 2017.

Continuing to Work Together with People in the Region

The Prefectural Economy

We anticipate the further invigoration of Saitama Prefecture's economy with investments ahead of the Tokyo Olympic and Paralympic Games in 2020. Public investment and private capital investment projects in Saitama Prefecture are being progressively implemented in line with the development of transportation infrastructure such as the Metropolitan Inter-City Expressway (Ken-O-do).

Initiatives for Medium-term Management Plan "MVP 2/3 (Two-Thirds)"

In April 2016, we have started the Bank's medium-term management plan "MVP (Musashino Value-making Plan) 2/3 (Two-Thirds)," the second phase of its efforts to realize its long-term vision for turning itself into "the region's number one bank that creates new value in Saitama." Based on this plan, the Bank has engaged in a range of initiatives to realize its growth strategy and regional revitalization centered on providing optimal solutions to customers.

In January 2017, we opened the Oji Office and the Shibuya Office in order to further enhance our branch network. Also, in June 2017, we opened "Your Lounge Urawa," in the Urawa Station West Exit area. This is our first next-generation model branch focused on individual customers.

In addition to enhancing consulting functions such as free consultations by attorneys and tax accountants, we are promoting the creation of branches modeled on unprecedented concepts such as collaboration with adjacent cafes.

For individual customers, we began offering a home loan with cancer insurance to help customers design high-quality life plans that provide them with a sense of security, while we also worked to enhance our lineup of investment trusts and other products to help people build up assets over the medium- to long-term.

We also enhanced our services, such as those related to inheritance and real estate trusts, for which needs continue to grow.

For corporate customers, we focused efforts on evaluating the business viability of SMEs based on accurately assessing their business scope and growth prospects and extending finance where possible not to easily relying on loan collateral or guarantees. We are steadily expanding our business achievements.

We also started offering the "Musashino Business Start-Up Support Loan" and the "Musashino Business Start-Up Support Service Pack" to support customers who have recently started a business. We are also working to provide optimal solutions depending on the customer's growth stage, such as business matching and M&A.

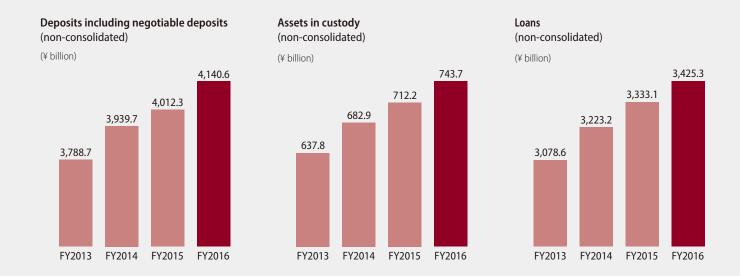

In addition, we began offering the "Musashino Bank Application" smartphone app which provides a variety of functions, and we are working with companies that are carrying out cutting-edge initiatives to create new services utilizing FinTech.

In order to help revitalize the region, we have strengthened collaboration with local governments to solve regional issues, and are focusing on supporting PFI projects implemented by local governments such as updating public infrastructure and facilities.

In addition, in May 2017 the Musashino Bank Group's think tank the Bugin Economic Research Institute and the Kasukabe Future Life Laboratory began joint research effort, which is rare in Japan, and we proactively hold seminars and other events in partnership with local governments in Saitama Prefecture.

Under the Chiba-Musashino Alliance, the comprehensive alliance we entered into with Chiba Bank in March 2016, we have launched a variety of new operations in the asset management business, the inheritance-related business, the international business, and other areas.

In April 2017, we established Chiba-Musashino Alliance Co., Ltd., a jointly-owned company, to examine the alliance's overall policy and medium- to long-term strategies. Going forward, we will continue to make the alliance more effective, and provide prompt high-value-added services to customers in the region.

Financial Results Fiscal 2016 (non-consolidated)

As of March 31, 2017, deposits, etc. were ¥4,140.6 billion, a year-on-year increase of ¥128.2 billion. Assets in custody, such as investment trusts and insurance products, were ¥743.7 billion, a year-on-year increase of ¥31.4 billion. Loans outstanding increased ¥92.1 billion year on year to ¥3,425.3 billion.

Profit attributable to owners of parent fell ¥2.2 billion year on year, due to the fact that market interest rates remained low due to negative interest rates, along with other factors. Still, this figure was ¥9.0 billion, and higher than our initial forecast, attributable to the increase in fees and commissions centered on solutions for corporate customers, as well as cost reductions and other factors.

Continuing to Work Together with People in the Region

In April, 2017, Musashino Bank celebrated its 65th anniversary. In reaching this milestone, I would like to express my thanks to our shareholders and business partners for their support and loyalty over the years.

The environment surrounding financial institutions like Musashino Bank is undergoing significant changes, including the continual launch of new financial services that have not existed before using FinTech.

Furthermore, the responsibilities and roles required of financial institutions, such as a commitment to customeroriented business operations (fiduciary duty) and enhanced financial intermediary capabilities, continue to become increasingly important.

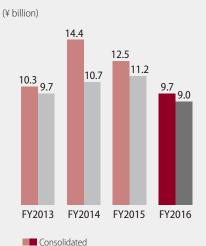

Going forward, in order to meet the expectations of people in the region, the directors and employees of Musashino Bank will remain fully committed to their work based on the corporate philosophy of "Working in harmony with the local community it serves" and "Maintaining a deep respect toward customers" which has been in place since the Bank was founded.

In closing, we kindly request your continued support and understanding.

Operational Base of Saitama Prefecture

Features and Attractiveness of Saitama Prefecture

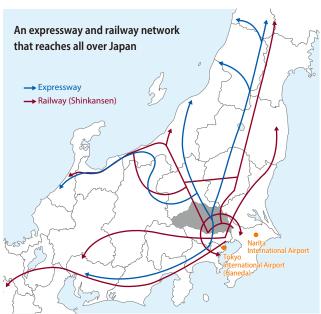

Saitama Prefecture, the Bank's operating base, has a vibrant economy. The prefecture is blessed with a favorable climate and topography, has a well-developed transportation infrastructure, including expressway and railway networks, and has a highly concentrated population and industry.

Well-developed Expressway and Railway Networks

Saitama Prefecture is located in the heart of the Tokyo metropolitan area, which is home to one-third of Japan's population (approximately 40 million people), and the prefecture has a well-developed network of expressways and railways. The Kanetsu, Tohoku, and Joban expressways run north to south through the prefecture, while the Metropolitan Inter-City Expressway (Ken-O-do) and the Tokyo Gaikan Expressway run east to west. The Ken-O-do provides access to the Tomei and Chuo Expressways, and also connects with the Higashi-Kanto Expressway, which extends to Narita International Airport, east Japan's gateway to the sky. This has attracted logistics and production bases to the prefecture. As for railways, Saitama Prefecture is directly connected to both Tokyo and other key cities via the Hokkaido, Tohoku, Akita, Yamagata, Joetsu and Hokuriku Shinkansen (bullet trains), which originate in Omiya.

Ken-O-do Kawajima Interchange area ©Omiya National Highway Office, Kanto Regional Development Bureau, Ministry of Land, Infrastructure, Transport and Tourism

A Favorable Climate and Topography

Located on the borders of Tokyo and six prefectures, Saitama Prefecture is an inland prefecture on the Kanto Plain, and all parts are less than 100 km from central Tokyo.

Saitama Prefecture covers 3,798 square kilometers and accounts for around 1% of Japan's land area. The area of prefectural land covered by mountains is less than the national average, while the area of lowlands and tableland is greater. Rivers account for 3.90% of the prefecture's area, the highest figure for a prefecture in the country.

It is very comfortable to live in because it has more clear days annually than anywhere else in Japan, and has few natural disasters.

Fifth Largest Prefecture by Population

The population of Saitama Prefecture is 7.30 million (estimated population as of June 1, 2017), the highest level ever. It has the fifth largest prefectural population in Japan.

Fifth Largest Economy in Japan

Total production in Saitama Prefecture is about ¥20 trillion, making its prefectural economy the fifth largest in Japan. Also, over the past 10 years, the increase in Saitama's total production has been the second greatest in Japan, as the prefecture's economy continues to grow.

Collection of Diverse Manufacturing Industries

Saitama Prefecture has a diverse range of local industries centered on the automotive-related industry. With the prefecture's strong transportation infrastructure, including the Ken-O-do, the relatively small number of natural disasters, as well as inexpensive land prices despite being adjacent to central Tokyo, over the 10 years from 2007 to 2016 there was a net influx of 927* companies to the prefecture, the highest number in the country.

* Based on Teikoku Databank Survey

Contributing to the Local Economy

Deposits from the Region

As of March 31, 2017, deposits from the region increased ¥94.5 billion year on year to ¥3,916.9 billion. The ratio of deposits from the region continued to be high, at 99.12% of the total balance of deposits.

The Bank's share of deposits within the prefecture as of March 31, 2017 declined to 13,46%.

Assets in Custody from the Region

As of March 31, 2017, assets in custody from the region increased ¥31.2 billion year on year to ¥743.0 billion. The breakdown comprises investment trusts of ¥153.8 billion, life insurance of ¥512.0 billion, and government bonds and other assets of ¥77.2 billion.

* Investment trust figures are market value; life insurance figures are total sales.

Loans to the Region

Loans to the region as of March 31, 2017 rose ¥81.6 billion to ¥2,947.1 billion, thereby maintaining a high loan-to-region ratio of 86.04%. The Bank's share of loans in the prefecture improved to 18.92%.

Towards a Sounder Financial Position

The Bank is strengthening its capital adequacy and reducing non-performing loans. The Bank has maintained a consolidated and non-consolidated capital adequacy ratio (Basel III domestic standard) of 9.46% and 9.20%, respectively, so we have continued to maintain a very sound financial position.

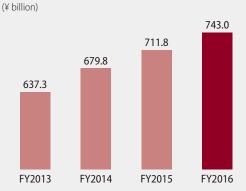

The Bank's non-performing loan ratio based on standards established by the Financial Reconstruction Act, declined by 0.21 of a percentage point to 1.81%.

^{* &}quot;Region" refers to Saitama Prefecture and the areas bordering the prefecture which are a part of the economic and local-living sphere (the Kumegawa Branch, Itabashi Branch, and Goka Branch sales areas).

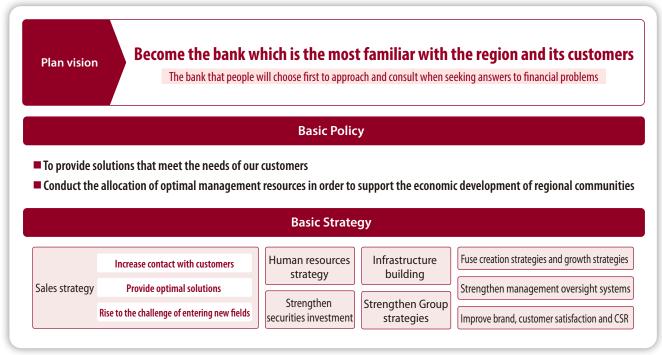

Long-term Vision/Medium-term Management Plan

In April 2016, the Bank started its medium-term management plan "MVP (Musashino Value-making Plan) 2/3 (Two-Thirds)," the second phase of its efforts to realize its long-term vision for turning itself into "the region's number one bank (The Value-making Bank) that creates new value in Saitama," and has been working to further expand its contact with customers and provide optimal solutions.

The Chiba-Musashino Alliance, a comprehensive alliance with Chiba Bank signed in March 2016, is a "new model for regional bank alliances" that aims to improve customer convenience and further contribute to the development of the region, while allowing each bank to remain independent.

Key Initiatives of the Chiba-Musashino Alliance

2016	March	Signed Chiba-Musashino Alliance			
	June	Began cooperation with syndicated loans, etc.			
		Launched the lease intermediary business			
	July	Started collaboration in the asset management business (September—origination of dedicated fund, execution of joint campaign)			
	August	Began offering the CSR privately-placed bond <i>Mirai no Chikara</i>			
	October Began mutual introductions of business partners and business matching				
		Established and started using the Chiba-Musashino Alliance logo			
	November	Started collaboration on international business			
	December	Established the Chiba-Musashino Partner Fund			
2017	February	Started collaboration in personnel development (joint training sessions)			
	April	Established Chiba-Musashino Alliance Co., Ltd.			
		Started collaboration in the inheritance-related business			
	May	Began collaboration in insurance call center operations			
	August	Started collaboration in the financial instruments intermediary business			

Establishment of Jointly-Owned Company Chiba-Musashino Alliance Co., Ltd.

In April 2017, Chiba-Musashino Alliance Co., Ltd. was established through a 50/50 stake by both banks. This new company will study the overall policies and specific strategies for the alliance, as well as cross-organizational initiatives, and will aim to further strengthen the alliance.

Providing SME Management Assistance

Support for Start-Ups and New Entries

The Bank recognizes that for the sustained development of the regional economy it is indispensable for start-ups and new entries to be done actively and continuously. Consequently, we are working with a "support team for start-ups and new entries" in Head Office and with branches to strengthen our efforts in this area.

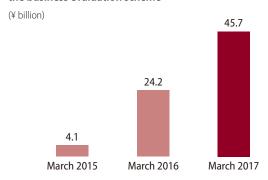

In order to support entrepreneurs and those people preparing start-ups, in December 2016 we began offering the "Musashino Business Start-Up Support Loan" and the "Musashino Business Start-Up Support Service Pack."

Business Evaluation

The Bank does not rely excessively on financial data, collateral and guarantees—it is strengthening its loans that prioritize the carrying out of business evaluation, including the business details and growth possibilities of each individual company. Loans based on business evaluation have increased to approximately 16% of our total lending (as of March 2017).

The execution amount of loan products utilizing the business evaluation scheme has increased significantly, and such loan products are widely used by our client companies.

Annual execution amount of lending products utilizing the business evaluation scheme

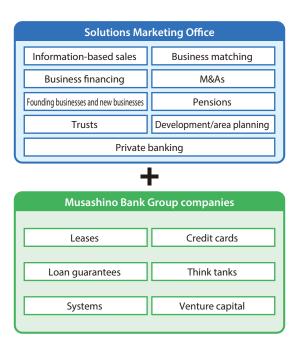

Offering a Variety of Financing Methods

The Bank has focused on offering a variety of financing methods, including syndicated loans to diversify procurement methods and implement financial rationalization when a cooperative financing group has been formed by a number of financial institutions, project financing that provides funding after focusing on the cash flow of a business, private placement bonds that result in improving the corporate image of a company conducting fund procurement, and Asset-Based Lending (ABL) that makes use of the customer's product inventory, accounts receivable or suchlike.

Strengthening Solution Sales

In order to further strengthen solution-based sales, the Bank is working together with client companies and management to solve various problems and issues while also drawing on the functional capabilities of Group companies.

Support for Overseas Expansion

We are also proactively assisting our corporate customers to expand business overseas. As of the end of June 2017, we had offered support in approximately 34 cases of companies expanding overseas, mainly to such ASEAN countries as Thailand, Vietnam, and the Philippines.

Furthermore, we assigned employees to the Singapore representative office of the Chiba Bank, the KASIKORNBANK in Thailand and to the Hong Kong branch of the Hachijuni Bank (a regional bank mainly based in Nagano Prefecture), to locally and directly handle consultations from companies that have already started doing business in these countries. Through participation in the regional bank alliance scheme of the Japan Bank for International Cooperation, we have formed business alliances with leading regional banks in Indonesia, India, the Philippines, Vietnam, and the Mexico State Government and others, providing various forms of assistance, including opening accounts and providing local information.

In addition, we are utilizing government measures to actively support our clients in entering overseas markets and developing their businesses overseas.

M&A Support

We utilize M&A to help local companies carry out smooth business succession, and to contribute to maintaining regional employment.

Support for Changing Business Sectors

Drawing on bank-wide assistance resources, including Group companies, the Bank provides optimal support for management improvement and revitalization and helps companies change their business sectors.

Nurturing Growth Fields

Turning the Possibilities for the Metropolitan Inter-City Expressway (Ken-O-Do) into Regional Growth

We are actively involved in development projects in progress along the Metropolitan Inter-City Expressway (Ken-O-Do), and are striving to provide a wide array of solutions that tap the comprehensive strengths of the Musashino Bank Group.

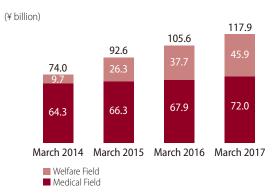

Specific Examples of Initiatives

In March 2017, the Musashino Bank Group's think tank, the Bugin Economic Research Institute, and Chiba Bank's think tank, the Chibagin Research Institute, jointly held a symposium called "Examining the Future of Chiba and Saitama Connected by the Metropolitan Inter-City Expressway." In addition to discussing the development trends and ripple effects in surrounding areas, the event's mixer created opportunities for business matching between companies in Saitama Prefecture and Chiba Prefecture.

Activities in the Medical and Welfare Field

Saitama Prefecture is rapidly aging in the lead up to 2025, when baby boomers will be aged 75 and above. With medical and welfare facilities projected to develop further going forward, the Bank has positioned the medical and welfare field as a growth area in Saitama Prefecture, and our loan balance has grown significantly as we have been actively working in this area for over a decade.

Balance of loans in the medical and nursing care fields, and in the welfare field

Initiatives in the Manufacturing Field

We actively support the core businesses of manufacturing companies in order to enhance their competitiveness and differentiate themselves from their peers. We hold seminars and perform inspection visits to support technological innovation and productivity improvements on an ongoing basis, including lectures by experts and introductions of examples of advanced companies.

Supporting Excellent Technologies and Products

We support the core businesses that utilize public schemes such as "standardization systems that create new markets" and "intellectual property" that evaluate the superior technologies and products of client companies, and make them visible.

Measures and Support for Regional Revitalization

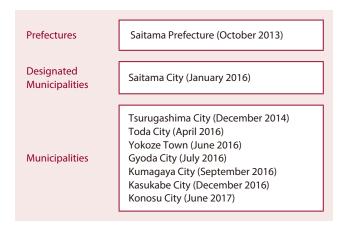

Promotion Structure

The Bank is establishing the "Team for Promoting Towns, People and Job Revitalization" at the head office in order to formulate and support the promotion of the Regional Comprehensive Strategy being undertaken by local government organizations involved with the government's "comprehensive strategy for towns, people, and job revitalization." The Bank is also assigning all branch managers to be "the person in charge of promoting Regional Revitalization," and building a structure for promoting Regional Revitalization throughout the Bank.

As a regional financial institution, the Bank recognizes these initiatives for Regional Community Revitalization to be one of the most important tasks, and supports the implementation of the Regional Comprehensive Strategy. Consequently, we are one participant in regional creation and are continuing to proactively collaborate with private-sector companies, NPOs, educational institutions and other bodies based on the relevant administrative policies to solve a variety of regional issues and to create regional value.

Alliances and Partnerships with Local Government Organizations, etc.

The Bank promotes alliances and partnerships with local governments through comprehensive agreements with them and other bodies for regional revitalization and enhancement of citizen services.

Initiatives for PPP and PFI

Against the backdrop of a declining population, we are also working to improve public services that utilize PPP and PFI schemes, and to support the creation of private-sector business opportunities, for the matters with which local government organizations are involved, including the improvement of community services, and the maintenance and administration of public facilities.

Consideration for Biodiversity

The Bank strives to consider biodiversity and other environmental factors into consideration in the construction of its branches and offices. For offices where administrative work is concentrated, we plant native plant species formerly found in the region around the buildings. Through such efforts, we became the first in the banking industry to receive JHEP certification from the Ecosystem Conservation Society – Japan.

JHEP certificate

Native plant species formerly found in the region

New Company—Musashino Harmony Co., Ltd.

We established Musashino Harmony Co., Ltd. with the aim of expanding working opportunities for people with disabilities. The company began operations in June 2017.

Going forward, we plan to increase employment in accordance with the expansion of business, and aim to acquire "special subsidiary" certification, which would make us the first financial institution in Saitama Prefecture to obtain such certification.

Training Dementia Supporters

As a Saitama Prefecture "dementia supporting enterprise," we are working to train "dementia supporters," as we move forward with town planning to support people with dementia and their families.

At the end of June 2017, approximately 2,450 executives and employees have become dementia supporters.

"Musashino CSR Private-Placement Bond 'Mirai no Chikara'"

We are offering the "Musashino CSR Private-Placement Bond '*Mirai no Chikara*'" which, together with other companies, supports the development of children who will be responsible for the region's future.

We contribute to the further revitalization of the region by donating goods (books, musical instruments, sports goods, etc.), equivalent to a certain percentage of the amount of bonds issued, to the school or other organization designated by the issuing company.

Helping with Finance Education

We actively provide opportunities for children to learn about the role of money and the banking business by providing a workplace experience for study and by holding finance classes at local events.

Work experience at Musashino Bank—Aiming to be Japan's Best Bank Staff (Held every year in August)

Basic Stance

Musashino Bank recognizes that upgrading and expanding its corporate governance capabilities are key priorities of management. In addition to adhering strictly to a policy of compliance with statutory and regulatory requirements as well as in-house rules and regulations, every effort is made to ensure that the Board of Directors and the Board of Corporate Auditors stringently monitor directors in the execution of their duties.

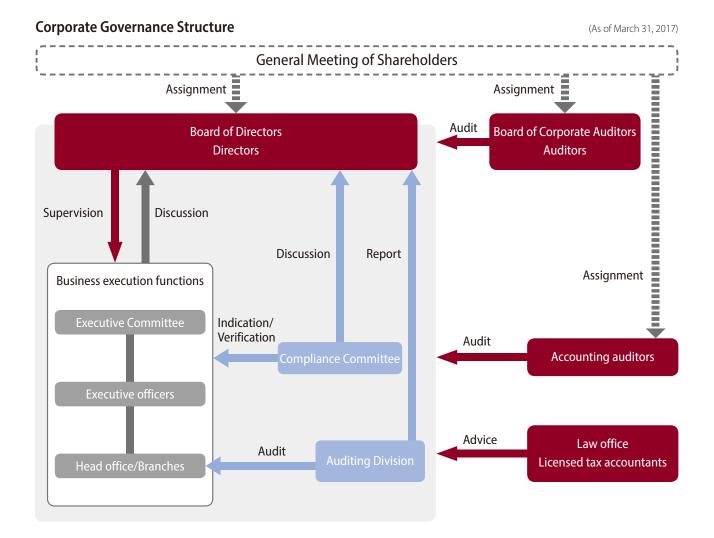

Two outside directors and three outside auditors who pose no threat of conflicts of interest with shareholders have been elected, and they monitor and audit directors in the execution of their duties. They also take part in meetings of the Board of Directors where they are able to proactively voice their opinions and offer advice on management from a broad, independent and neutral perspective. This ensures that the management monitoring function is both objective and impartial.

Also, the Bank has adopted an executive officer system in order to reduce the number of directors and to ensure a speedier decision-making process. Directors delegate authority to executive officers, who are charged with the responsibility of swiftly and efficiently carrying out their duties as leaders of the Bank's mainstay divisions.

Corporate Governance Structure

The Board of Directors is positioned as the ultimate decision-making body of the Bank. While strictly adhering to the Bank's variety of in-house rules and regulations, the introduction of an executive officer system allows the Bank to separate and clarify the management and business execution functions. A structure has therefore been put in place to allow directors and executive officers to go about their assigned duties and responsibilities.

Musashino Bank's management decision-making, business execution and oversight structure is presented as follows.

Risk Management Policy

As the risks associated with banking operations become increasingly varied and complex, the Bank has formulated a set of internal management policies that take into consideration the Bank's strategic targets, in order to ensure that the manner in which it manages its business is both sound and pertinent. Guided by these policies, the Bank works diligently to manage risk.

In specific terms, the Bank classifies all pertinent risks according to their nature and attributes. Classifications comprise (1) comprehensive risks; (2) credit risks; (3) market risks; (4) liquidity risks; and (5) operational risks (including administrative and system risks). These individual risks are then managed according to their particular characteristics and requirements.

Management Structure by Type of Risk

(1) Comprehensive Risk Management

In order to appropriately manage the wide variety of risks on a comprehensive basis, the Bank has established the Comprehensive Risk Management Department and is working to develop and improve its management structure. The Comprehensive Risk Management Department puts in place rules and criteria for determining the scope of comprehensive risk management, management methods, evaluation of new products and operations as well as the level of acceptable risk after taking into consideration management strategies, management capacity as well as business scale and characteristics. Based on these rules and criteria the ALM (Asset Liability Management) and other appropriate committees monitor and control risks. The results of these activities are reported to the Board of Directors and other relevant bodies on a regular basis.

(2) Credit Risk Management

Musashino Bank has historically taken steps to maintain the independence of the Credit Screening Division and to build a stringent screening and management structure in order to maintain and strengthen the soundness of its assets. At the same time, the Bank has adopted a ranking system and endeavored to upgrade and expand its credit risk management capabilities as a part of its efforts to establish objective decisions and lending policies on an individual transaction counterparty basis.

(3) Market Risk Management

Musashino Bank has established the Market Risk Management Department in order to appropriately manage market risks. Relevant steps are taken to ensure the independence of the Department from the Market Management Department and Business Promotion Division, and to establish and develop a structure that is capable of harnessing the checks-and-balances function. At the same time, the ALM and Credit Portfolio Management committees deliberate as and when required.

(4) Liquidity Risk Management

Musashino Bank has established the Liquidity Risk Management and Cash Management departments in order to appropriately manage liquidity risk. While ensuring the independence of the Liquidity Risk Management Department from the Cash Management Department, Market Management Department and Business Promotion Division, every effort is made to establish and develop a structure that is capable of harnessing the checks-and-balances function. At the same time, the ALM Committee deliberates as and when required.

(5) Operational Risk Management

Musashino Bank confronts broad and varied operational risks. In addition to classifying risks as (i) administrative risk, (ii) systems risk, and (iii) other operational risks (a. legal risk, b. human risk, c. tangible asset risk, and d. reputation risk), putting in place rules on an individual risk basis and promoting the management of each risk by the appropriate management department, the Bank has established the Operational Risk Management Department to undertake the management of operational risks on a comprehensive basis. The Bank also pushes forward measures aimed at establishing and developing a management structure that is capable of harnessing the checks-and-balances function with respect to each business division. Moreover, the Operational Risk Management Committee deliberates on issues as and when required.

Crisis Management/BCP Framework

To ensure business continuity in the event of a major earth-quake or a system failure, the Bank has established a Business Continuity Plan (BCP) and prepared related manuals for handling all situations. We make sure that all bank employees understand the business continuity system in the event of an emergency. Moreover, the Bank holds periodic drills to increase the effectiveness and level of sophistication of the BCP.

Building a Cyber Security Management Framework

In February 2017, we established the "Cyber Security Management Subcommittee" as a CSIRT* within the bank, with the aim of ensuring a highly-effective cyber security framework.

*CSIRT: Computer Security Incident Response Team
A general term for teams responsible for cyber security management within an organization. At the Bank, the "Cyber Security Management Subcommittee" and its secretariat are CSIRTs.

■ Compliance

Compliance Framework

The social and public mission of the banking business makes high demands for operations based on fair and transparent corporate activities in compliance with laws, regulations, and social norms and in accordance with the principles of self-discipline and self-responsibility. Accordingly, the Bank considers the thorough compliance of its directors and employees in business operations to be a top priority, and to this end management is actively involved in the fulfillment of the Bank's social and public mission as the Bank works to strengthen its compliance framework through steps such as system improvements and the establishment of teaching methods.

In the future the Bank will further strengthen its corporate activities based on a strong sense of ethics and integrity and its management approach in accordance with principles of self-responsibility as it further strengthens the compliance framework so that the Bank's daily business activities and actions ensure compliance with laws, regulations, and social norms.

Basic Compliance Policy

Musashino Bank's basic compliance policy entails that officers and employees go about their daily duties in accordance with the Bank's two fundamental management guidelines, namely its Corporate Philosophy and Code of Behavior.

Under its unwavering Corporate Philosophy, the Bank strives to work in harmony with the local community it serves while maintaining a deep respect toward customers. As a local bank in Saitama Prefecture, we continue to contribute to the local community and society. Furthermore, the Code of Behavior is founded on "the public mission of the bank" and stipulates "provision of high quality financial services," "compliance with laws, regulations, rules, etc.," "open business management through communication with society," "respecting the personalities of employees," "tackling environmental problems," "tackling social contribution activities," and "resolute responses to anti-social forces," and directors and employees go about their daily duties guided by these basic policies.

Compliance Management Structure

The Legal Affairs Office of the Risk Management Division serves as the compliance management department for the Bank. This Office undertakes the uniform management of all legal issues relating to compliance while providing instructions based on investigation and research. At the same time, the Office coordinates with officers responsible for legal compliance appointed to all branches while working to strengthen the compliance structure. Regular meetings are held with the officers responsible for legal compliance appointed to each branch in order to improve the level of

compliance through the sharing of information and training and also, meetings are held each month with the officers responsible for legal compliance in the head office and each department. These meetings serve as a forum to deliberate on compliance issues and to share information.

In addition to the aforementioned, periodic compliance checks are undertaken at each branch by the officers responsible for legal compliance. In this manner, the Bank has put in place a mechanism that is capable of grasping the status of daily compliance management.

Furthermore, Musashino Bank has established the Compliance Committee with the president of the bank serving as the chairperson, which serves as the organization that checks the status of compliance on a Bank-wide basis while considering any and all other important matters through regular meetings. In addition, the committee evaluates and checks on the progress and implementation status of the "Compliance Program" approved by the Board of Directors.

Compliance Manual

To ensure the compliance of its officers and employees, the Bank has distributed a compliance manual that has been approved by the Board of Directors to all of its officers and employees and is working to ensure that all staff members are fully aware of its contents.

The compliance manual contains sections on the Bank's Corporate Philosophy, Code of Behavior, and basic policies. It contains a section on compliance standards that stipulates the matters officers and employees should comply with, a section on the compliance framework that provides an explanation on various structures at the Bank including education and verification structures, a section on laws and regulations that require directors' and employees' compliance, and which contains an explanation of the laws and regulations that bank employees are required to be knowledgeable of, and a pick-up compliance section that provides a more detailed explanation of the matters that should be prioritized in the conduct of daily work. The compliance manual serves as a standard for making decisions and taking actions in everyday business activities.

Elimination of Anti-Social Forces

The Bank has stipulated the elimination of anti-social forces as a basic policy and is working toward blocking all relationships with anti-social forces. Furthermore, in accordance with the basic policy, we have established a manual which stipulates our specific initiatives for blocking relationships with anti-social forces, and we are endeavoring to educate the bank employees about this issue through training and other measures.

Brand Message

More For You

The Musashino Bank's brand message is "More for You." The Bank personnel always ask themselves "What can I do for everyone?" and "What kind of service do I want to give everyone?" "Everyone" includes the Bank's customers, the members of local communities, our shareholders, and friends of the Bank, together with their families. Accordingly, the Musashino Bank aspires to provide everyone with better services and to contribute to our local communities.
